## PROGRAMME - RISTCON 2015

## 22<sup>nd</sup> January 2015

| Time                              | Abstract<br>No                              | Торіс  |  |  |
|-----------------------------------|---|--|--|--|
| 08.00 - 12.30                     | Registration and INAUGURAL SESSION          |  |  |  |
| 12.30 - 13.30                     | Lunch Break                                 |  |  |  |
| 13.30 - 14.30                     | Invited Presentations: Prof. UpulWijayantha |  |  |  |
|                                   | Laughboro                                   | ugh University, UK   |  |  |
|                                   | "Recent I                                   | Research Advances at ERL"  |  |  |
| 14.30 - 15.00                     | Tea Break                                   |  |  |  |
| Session C1                        |   |  |  |  |
| Chairperson: Prof. K.D. Pathirana |   |  |  |  |
| -                                 |   |  |  |  |
| 15.00                             | C-004                                       | Efficacy of physiotherapy management and ayurvedic   |  |  |
|                                   |   | management of knee joint osteoarthritis  |  |  |
|                                   |   | <u>P.P. Rubasinghe</u> , P.P.S.L. Pathirana  |  |  |
| 15.15                             | C-005                                       | Risk behaviours for oral cancer among tea industry workers: How  |  |  |
|                                   |   | do they relate with cancer awareness?  |  |  |
| 15.20                             | 0.012                                       | <u>H.G.N. Madushika</u> , C.J. Wijesinghe  |  |  |
| 15.30                             | C-013                                       | Prevalence of Malnutrition in Female Undergraduates Residing in  |  |  |
|                                   |   | Hostels of University of Sri Jayewardenepura<br>D. P. M. De Silva, E. M. N. Ekanayake, G. I. Maduni, P. P. R. Perera |  |  |
| 15.45                             | C-021                                       | Consumption of selected foods by patients with Coronary Artery   |  |  |
| 10110                             | 0 021                                       | Disease (CAD)  |  |  |
|                                   |   | E.M.S. Bandara, S. Ekanayake, A.D. Kapuruge , C.A. Wanigatunge   |  |  |
| 16.00                             | C-022                                       | Pre and post-operative albumin concentration and development of  |  |  |
|                                   |   | post-operative infection in Coronary Artery Bypass Graft (CABG)  |  |  |
|                                   |   | <u>E.M.S. Bandara</u> , S. Ekanayake, A.D. Kapuruge , C.A. Wanigatunge   |  |  |
| 16.15 – 17.15                     | Invited Speech: Prof. SarathKotagama        |  |  |  |
|                                   | -   | nt of Zoology, University of Colombo   |  |  |
|                                   | "Integrat                                   | ion of natural resources in development through research"  |  |  |

## 23<sup>rd</sup> January 2015
