### Participant Information

		Yes	No
Will you inform participants that their participation is voluntary?			
Will you inform participants that they may withdraw from the research at any time and for any reason?			
Will you inform participants that their data will be treated with full confidentiality and that, if published, it will not be identifiable as theirs?			
Will you provide an information sheet that will include the contact details of the researcher/team?			
Will you obtain written consent for participation?			
Will you brief participants (i.e., give them an explanation of the study and its aims and hypotheses)?			
If using a questionnaire, will you give participants the option of omitting questions that they do not want to answer?			
If an experiment, will you describe the main experimental procedures to participants in advance, so that they are informed about what to expect?			

### Participant consent

Please describe the arrangements you are making to inform participants, before providing consent, of what is involved in participating in your study and the use of any identifiable data, and whether you have any reasons for withholding particular information. Due consideration must be given to the possibility that the provision of financial or other incentives may impair participants' ability to consent voluntarily. (No more than 300 words)
